

Definition of Instructional Strategies K-4

Extended Instruction -Classroom differentiation is combined with small group programming to meet the needs of students assessed in the 98 - 99th percentile on SIGS and SAGES. The Elementary Enrichment Resource teacher works with the classroom teacher to provide for these needs. Examples in grades K-4 include:

- Book groups and literature circles
- Math challenge groups
- Curriculum related groups, extensions, or projects in math, reading, writing, science or social studies
- Math competitions
- Language Arts competitions
